

Rhode Island Laborers' Pension Fund: Accrual Rates

- \$90 times the number of a participant's Pension Credits earned prior to January 1, 2007, provided the participant earned at least one-half (1/2) Pension Credit during 2005 or any year thereafter.
- \$100 times the number of a participant's Pension Credits earned between January 1, 2007 and December 31, 2017, provided the participant earned at least one-half (1/2) Pension Credit during 2007 or any year thereafter.
- \$105 times the number of a participant's Pension Credits earned in 2018 and 2019, provided the participant earned at least one-half (1/2) Pension Credit during 2017 or any year thereafter.
- \$115 times the number of a participant's Pension Credits earned in 2020, provided the participant earned at least one-half (1/2) Pension Credit during 2019 or any year thereafter.
- \$125 times the number of a participant's Pension Credits earned in 2021 and thereafter, provided the participant earned at least one-half (1/2) Pension Credit during 2020 or any year thereafter.

Prior to 2007, the accrual rate depends on when Pension Credits were last earned and whether total pension Credits were 15 or less.
